Pickleball

We are excited to add pickleball to our growing list of amenities. Pickleball keeps growing in popularity around the country and Naples has been named the pickleball capital of the U.S! We have 6 LED lighted pickleball courts for day or night playing. Each court features cushioning of the court surface, which helps our Members minimize impact on their knees.

Learning a new sport can be intimidating, but at Quail Creek we make it fun! Our team is certified to teach you all the techniques and strategies to help you learn quickly and get out on the courts sooner. Reserve your lesson or join a clinic to meet new friends and discover what makes this sport so exciting.

Blue Zones Inspired Restaurant

Blue Zones Project is a community-wide well-being improvement initiative to help make healthy choices easier for everyone. Introduced to SW Florida in 2015, the BZP is based upon the world travels of New York Times bestseller Dan Buettner, who identified communities worldwide where people share lifestyle traits and live to 100 or older.

Our culinary team has crafted menu items and replacement options to make healthier choices available to our Members. Blue Zones Project foods can best be described as entirely plant and grain-based entrées and appetizers.
